RED CROSS AUCTION

Saturday, November 22nd saw the long-awaited and much publicised Red Cross Auction take place at the old drug store during the afternoon and evening.

A large amount of varied goods, donated by the residents of the town and district and local merchants was completely disposed of during the auction sale. A good deal of friendly rivalry in bidding was experienced and sale prices were good. The sum of \$295 was realized for the local branch of the Red Cross which they will use in their war work. There were no expenses in connection with the sale, all services of individuals, publicity and the use of premises were donated.

The Red Cross executive wishes to express, through the medium of the Chronicle, their most sincere thanks and deep gratitude to the people of the town and district who contributed to making the sale a success. It would be impossible to single out one more than another for any special mention as it was a truly cooperative venture. Every one making a donation and every one attending the auction together with those who offered their services in various capacities share equally in any credit for the success.

Anyone in the district wishing to enlist for service in Canada's army and unable to contact the recruiting officer can provisionally enlist at any time at the Chronicle office.

BRITAIN'S TEN GUN TERROR OF THE SKIES

The twin-engine Bristol Beaufighter is one of the most formidable fighter aircraft in service with Britain's Royal Air Force.

The Beaufighters great speed and range are still secret, but it is known that some are fitted with four cannon and six machine guns. It has proved to be a deadly night fighter as German raiders have found to their great cost.

CLEVERVILLE PIONEER CLUB

The annual old-timers get-together was held in the Community Hall Wednesday November 26. A program and dancing provided the entertainment for the evening. Step dancing, recitations and songs were given by the different old-timers. Mr. and Mrs. Orville Smith sang.

Two of the oldest old timers, Mrs. Alcock and Mr. M. Diemert were present and a gift was presented to each.

A turkey supper with all trimmings was enjoyed by all.

175 were present at this gala affair. The ball broke up about 3:15.

Province Wide Recruiting Tour Held Again

TWELVE MISSIONS TO START
ON NEW DRIVE DECEMBER 1

—“v”—

Another province wide recruiting tour will be undertaken by 12 recruiting missions, commencing December one, Major J. H. Gairnor, M.C., district recruiting officer, announced this morning.

Practically every town in Alberta will be visited during the campaign. One of the purposes of the drive is to contact the men who were engaged in harvesting operations during the last drive and to recontact the men who had expressed willingness to join up when approached during the last drive and have not yet reported for duty.

There are also a number of recruits throughout the province who were rejected in earlier Medical Examinations and are now acceptable for enlistment due to a lowering of the previous standard in regard to slight eye and ear troubles. These men may now be examined with every chance of being accepted.

SEEDTIME and HARVEST

By
Dr. K. W. Neatby
Director, Agricultural Department
North-West Line Elevators Association
AN ILLUSTRATED GUIDE TO
PRAIRIE WEEDS

The above title has been chosen for a new 72-page bulletin just published by the Agricultural Department of The North-West Line Elevators Association. This bulletin contains portrait photographs of 63 common weeds, and four of the illustrations are in full color. All of the weeds illustrated are also described, and brief notes on 22 others are included. At the end of the bulletin will be found photographs of seeds of 60 different weeds.

The chief purpose of the bulletin is to assist farmers and others in identifying weeds. A few remarks on control methods are offered in most cases, but these are brief. Methods of control must be adapted to local conditions and, hence, specific recommendations can rarely be applied to large areas.

The first essential in fighting weeds is to know them. This is particularly true of perennials such as Leafy Spurge, Hoary Cress and others. Control is relatively easy if undertaken in time, and a delay of two or three years may be costly.

It has been stated that, in the United States, losses due to weeds are one and one-half times as great as the combined loss due to animal diseases, plant diseases and insect pests. The situation on the Canadian prairies is probably not very different.

The new bulletin will be found most helpful, and should be in the hands of every prairie province farmer. Copies may be obtained free of charge from grain buyers of any line elevator company associated with this Department, or from The North-West Line Elevators Association, Winnipeg or Calgary.

A PART FOR ALL TO PLAY

— V —

At a meeting held in the municipal hall Thursday evening and attended by the business men of the town and members of the town and municipal councils,

it was decided to organize a salvage committee in this district for the purpose of collecting salvage of various kinds wanted by the Federal Government.

The meeting was addressed by Mr. Sheline of the Department of War Services, Ottawa, who outlined the entire program for the collection of salvage which the government has organized and stressed very emphatically the necessity of everyone realizing the seriousness of the situation now holding with respect to the supply of raw materials necessary for the production of war implements.

Hitler would like us, said Mr. Sheline, to just take it easy and say that this new salvage campaign is no concern of ours. In reality, Mr. Sheline continued, each and every one of us MUST take part in this campaign and do the utmost to keep the wheels of industry turning 24

hours a day. Only by realizing how serious the situation is and by cooperating to the utmost can we supply the boys in the army, navy and airforce, our boys, the materials so needed when they go into battle with the super equipped hordes of Hitler.

An organizing meeting will be held Tuesday evening December 9th when committees will be formed and preparations for the collection of salvage commenced.

The Chronicle urges all in this district to get behind this campaign with all they have—not only by the saving of salvage, which they must do, but also by offering their services in collecting it, sorting it and loading it for shipment.

This district is known for its splendid cooperation in calls upon it for public service. In this one, when the need is so great, let us show how splendid we really can cooperate and not only back up our boys in the army but also serve as an example to other communities in the efficient collection of salvage for war purposes.

Everyone knows that four dollar bills don't usually add up to five... BUT, the WAR SAVINGS certificate which costs you four dollars makes this kind of arithmetic come true.

Yes, and every four dollars you send to Ottawa actually gets behind a gun and shoots. It buys vital war equipment of some sort. It helps shorten the war.

After this war, you get FIVE DOLLARS, not four dollars. Thus right now, your savings are helping to win and they're helping to build a nest-egg for yourself.

FROM PEACE to WAR...

*Alberta's switch was
speeded by Power!*

When the need arose mines, factories and plants swung from peacetime tempo to the hurried, urgent speed of war. Increased activity, redirection of effort, new operations... were all necessitated by the war and made under the stress of war.

In their successful achievement a major contributing factor has been Electricity — power that, when and where required, was available because of the interconnected province-wide system of this organization.

STABILIZATION OF PRICES AND WAGES

*Your Country asks your loyal support
of this Wartime Measure*

TWO NEW CONTROLS have now become essential in Canada's wartime design for living. These are:

(1) Control of Prices

Commencing November 17, 1941, there may be no increase in the prices of goods and services generally unless absolutely necessary and authorized by the Wartime Prices and Trade Board.

(2) Control of Wages

No employer, with certain limited exceptions, may increase the basic wage rates paid to his employees unless authorized by a Board on which the Government, employers and employees are represented. But after February 15, 1942, every employer with the same exceptions, will be obliged to pay a cost of living bonus and to adjust this bonus every three months.

Action Necessary to Stop Inflation

This Government action has been taken to prevent the inflation we knew in the last war, and its subsequent depression, unemployment and suffering.

Every housewife knows that prices are rising, and rising prices, unless controlled, will make it more costly and difficult to finance the war. Rising prices, unchecked, will spread confusion in industry and trade; will hinder production and proper distribution of supplies; will make the cost of living rise more rapidly than wages and salaries; will lessen the value of savings; will result in hardship for almost everyone, and especially those with small incomes. And the result of uncontrolled inflation, after the war, when prices drop, will again be depression and unemployment. Prices cannot be controlled without control of wages. Excess profits are, and will continue to be, under rigid control.

Coverage of Wages Stabilization Order

The Order is applicable to the following employers:

- 1—Every employer normally subject to the Industrial Disputes Investigation Act.
- 2—Every employer engaged in the manufacture of munitions of war, or war supplies, or the construction of defence projects.

3—Every building trades employer with ten or more employees.

4—Every other private employer with fifty or more employees.

The Order does not apply to employers in agriculture or fishing, or to hospitals, religious, charitable or educational associations operated on a non-profit basis.

Wage Provisions

Except on written permission of the National War Labour Board, no employer may increase his basic wage rates. This permission can only be given in cases where the Board has found the wage rates to be low. Wage rates which are unduly high will not have to be decreased, but in such cases the Board may order the employer to defer the cost of living bonus.

Cost of Living Bonus

Every employer covered by the Order must pay to all his employees except those above the rank of foreman a wartime cost of living bonus.

Effective November 15, each employer already paying a bonus under PC 7440 of December 16, 1940, shall add to such bonus an amount based on the rise in the cost of living index for October 1941, above the index number used to determine the current amount of the bonus.

Effective February 15, 1942, each employer who has not been paying a cost of living bonus must begin to pay a bonus based on the rise in the index between October, 1941, and January, 1942, unless ordered by the Board to base the bonus on the rise in the cost of living over a longer period.

The bonus is calculated on the following basis: For each rise of one point in the cost of living the amount of the bonus shall be 25 cents per week, except for male workers under 21 years of age and female workers, who, if employed at basic rates of less than \$25.00 per week, shall receive a bonus of 1 percent of their basic wage rates.

These bonuses will be adjusted regularly every three months.

Administration

The Order will be administered by five regional Boards under the direction of a National War Labour Board. Labour and employers will be represented on each of these Boards. Watch for the announcement of these Boards to which inquiries concerning the application of the Order should be directed.

Whole-Hearted Support Required

Your Government knows that this policy, as it affects labour, industry, commerce, and agriculture, demands a degree of restriction to which Canadians are not accustomed, and is directly a wartime measure. It will demand self-discipline and self-control. It will need the whole-hearted support of everyone who has the well-being of his fellow citizens at heart. But by loyal co-operation, Canadians can have much more assurance that the fears, sense of insecurity, the suffering and profiteering which inflation always brings, will neither interfere now in the winning of this war, nor in the recovery and reconstruction of Canada and the Canadian way of living after the war is over.
